Removing ridesharing from South Carolina harms the tens of thousands of riders who rely on the Uber platform for safe, low-cost rides. If you want continued access to the safest and most affordable rides on the road, you can email and [tweet](#) at the PSC to tell them **#SCneedsUber**.

Please allow uber's service to continue. I am simply a paying user of this service, not a driver. I feel much safer and secure with an uber driver than with their taxicab counterparts and the cleanliness and comfort of these rides is exponentially better than in a taxicab.

While I have a firm belief in not drinking and driving, I have seen in my friends that they are much more willing to use uber's service in lieu of driving drunk which is not the same as for cabs.

Please allow this service to continue. This will be my main are of concern when considering my vote in the next election out of the 7th district.

Thanks,

Andy Paul

I understand your concerns for the safety of the wonderful people of our great state.

I understand that its hard for entrenched government agencies to accept when the time has come for a change.

I understand that its easy to fear things that threaten the status quo.

But I do not understand why you would be susceptible to such shenanigans in a day and age when information is available at your fingertips.

Uber and other ride sharing companies go above and beyond the safety checks that are currently employed by taxi organizations. To force a company out of business while you allow less safe companies to go on operating is nothing short of showing favoritism.

Stop playing favorites. Its childish.

I don't understand why the PSC has issued this order to stop uber from working in SC. Having used uber in other cities and realizing tremendous saving over cabs I am familiar with uber.

My experience has been that uber drivers have nicer automobiles and are much friendlier than cab drivers. Please reconsider. I have only had positiver experiences using uber.

Thanks

Please figure this out, other cities have. I live in charleston but first used the uber service in NY. Great, safe and fair service.
